

Tips for Watching Mass Live

- You don't need a Facebook account to access a Facebook page and you are not restricted to viewing Facebook on the tiny window embedded on the Parish webpage. This is just for a quick scroll. You just click on the Our Lady of Lourdes Catholic Church ICON on the Facebook embedded on the website and this will take you to the Facebook page.
- Then click on the Live Stream of the Mass.
- To view full screen on your computer click on the full screen icon to make the screen larger and remove the comments section.
- To view on your mobile phone or IPAD just turn it to landscape to view the full screen without comments.
- Please **do not** make comments while watching the Live Streaming of the Mass.... It is a **Mass** and we would like everyone to become involved in the Mass not reading comments as they pop up.
- Live Stream can also be connected to your TV with your Laptop or if you have a smart TV you can watch it directly on the TV.
- For audio assistance if needed you can connect to speakers.
